SAMPLE QUESTIONS: PEA (MATHEMATICS)

- For each of the 30 questions, there are four suggested answers. Only one of the suggested answers is correct. You will have to identify the correct answer to get full credit for that question. Indicate your choice of the correct answer by darkening the appropriate oval completely on the answer-sheet.
- You will get:
 - 4 marks for each **correctly** answered question,
 - 0 marks for each **incorrectly** answered question, and
 - 1 mark for each **unanswered** question.
