Note : Answer all the questions.

1. Fill in the blanks with the correct symbol/word(s) by selecting from the choices given in the brackets : 10 × 1 = 10
- i) A plotter is an
(*input device, output device, I/O devices*)
- ii) CPU of a computer consists of
(*ALU & memory unit, ALU & output unit, ALU & control unit*)
- iii) Longest key on the keyboard is
(*tab, del, space bar*)
- iv) An escape character used for tab setting in
(*\n, \f, \t*)
- v) DOS is an example of
(*machine language, system software, operating system*)
- vi) A formatted input function is
(*scanf, printf, putchar*)
- vii) The values of variables used in a call statement is known as
(*variable, parameter, argument*)
- viii) Library function used to find the power of a number is
(*pow, sqrt, tan*)
- ix) A program written in C result is very efficient object code which runs
(*slow, fast, very fast*)
- x) Any expression whose output is either true or false called
(*logical expression, relational expression, arithmetic expression*)
2. a) Define processor. 2
- b) Explain hardware and software. 4
- c) Draw a neat layout diagram of computer components. 4

3. a) What is hybrid computer ? 2
b) Explain input and output devices. 4
c) List the advantages of computer. 4
4. a) Define algorithm. 2
b) What do you mean by application software ? Give any two examples. 4
c) How the computer languages are classified ? 4
5. a) Explain the term 'constant' and name the types. 4
b) Write a C program to find the area and circumference of a circle. 6
6. a) What is the necessity of comment ? Give its syntax. 4
b) Write a program to determine the sum and average of three numbers. 6
7. a) Mention any five types of statements. 5
b) Identify the errors in the following statements : 5
i) $S = X1 + Y1$ ii) $P = X + Y ; 5$
iii) $X + Y = \text{sum};$ iv) $5 = X + Y + Z ;$
v) `Float f'1 = 5`
8. a) Define function and list the basic types of C functions. 5
b) Write a program to display message of function. 5
9. a) Write short notes on any two of the following : 5
i) E-mail
ii) Internet
iii) Data input and output.
b) Write a program to read the details of students name and parents name. 5
