**120 MINUTES** 

1.	Psychology is the scientific study of								
	A)	Overt behaviour of living beings							
	B)	Covert behaviour of living beings							
	C)	Overt and covert behaviour	of livin	ng beings					
	D)	Overt and covert behaviour	of hum	an beings					
2.		The process by which we select, organize and interpret information from our senses is							
	A)		B)	Learning					
	C)	-	D)	Thinking					
3.	The	smallest change in the intensity	of a st	imulus than can be detected by a person					
	is								
	A)	Absolute noticeable thresho	ld						
	B)	Just noticeable difference							
	C)	Minimal threshold							
	D)	Minimum noticeable differe	ence						
4.		Perceptual constancy enables one to perceive a stable and consistent world and that includes							
	A)	Shape constancy only							
	B)	Size constancy only							
	C)	Both shape and size constan	icy						
	D)	More of shape and less of si	ze cons	stancy					
5.		A key element in perception, enabling us to focus on only a few of the many							
		uli that constantly bombard our							
	A)	Attention	B)	Cognition					
	C)	Consciousness	D)	Selection					
6.		We interpret and identify stimuli in part by matching them to							
	A)	Schemas	B)	Memory					
	C)	Sources	D)	Genesis					
7.	Unde	Under certain conditions learned helplessness occurs							
	A)	Due to imagined failures	B)	Due to cognitive failures					
	C)	Due to combative failures	Ď)	Due to inevitable failures					
8.	A. C	A. Conflict in which a choice must be made between two attractive goals is called							
	A)	Approach-Avoidance confli		C					
	B)	Approach-Approach conflic							
	C)	Avoidance-Avoidance confl							
	Ď)	Double Approach-Avoidance		lict					
9.	In To	oken Economy, tokens are							
	A)	Primary reinforcers	B)	Secondary reinforcers					
	C)	Add on reinforcers	D)	Principal reinforcers					

10.				hnique of "Modeling" has been used by		
	A)	Benson	B)	Barlow		
	C)	Bandura	D)	Bates		
11.		tatement, classical conditioning fested by human adults is	g by p	ast events may explain many of the fears		
	A)	True in abnormal situations	B)	True in selective situations		
	C)	True in most of the situations	s D)	True in clinical situations		
12.		nforcement schedule in which there of responses is	the rei	nforcer is given only after a specific		
	A)	Fixed interval schedule	B)	Intermittent schedule		
	C)	Fixed ratio schedule	D)	Continuous schedule		
13.	A lea	rned strategy for approaching a	ı learn	ing task is		
	A)	Practice set	B)	Rate set		
	C)	Solving set	D)	Learning set		
14.	Learn	ning through Insight is due to				
	A)	A sudden creative change that	at solv	res the problem		
	B)	A sudden affective change th	at sol	ves the problem		
	C)	A sudden conative change th	at solv	ves the problem		
	D)	A sudden cognitive change the	hat sol	lves the problem		
15.	The belief that every one sees the world and responds to it as one does because of the inability to distinguish between the self and the external world in young children is known as					
	A)	Ego centrism	B)	Ego expansiveness		
	C)	Egolessness	D)	Ego centeredness		
16.		cognitive process through which	h infor	rmation is used to reach a goal that is		
	A)	Intellectual processing	B)	Problem solving process		
	Ć)	Information processing	Ď)	Obstacle riding process		
17.	Efficient problem solving strategies that do not guarantee a correct solution is named					
	A)	Algorithms	B)	Trial and Error		
	C)	Heuristic	D)	Implied insight		
18.	The a		rategie	es for dealing with new kinds of problem		
	A)	Fluid intelligence	B)	Crystallized intelligence		
	C)	Multiple intelligence	D)	Creative intelligence		
19.	Struc	ture of intellect was proposed b	ΟV			
- •	A)	Eysenck	B)	Dollard		
	C)	Cattell	D)	Guilford		

20.	The study of computers that are programmed to perform like human brain is					
	A)	Robotics	B)	Artificial intelligence		
	C)	Cybernetics	D)	Man-Machine Intelligence		
21.	The te	erm creativity indicates one's a	bility to	o think		
	A)	Unusually	B)	Idiosyncratically		
	C)	Unconventionally	D)	Individualistically		
22.	cerebi A) B) C)	cal cortex from physiological re Cognitive theory of emotion Cannon-Bard theory of emot Cognitive-Affective theory of	eactions ion of emoti			
	D)	James-Lange theory of emoti	IOII			
23.	The co	onsequence of serious emotion	al stres	s during pregnancy is		
	A)	Foetal retardation in growth	B)	Foetal slowness in maturation		
	C)	Foetal hyperactivity	D)	Foetal hyper emotionality		
24.		ologically potent ideas that dir ship and achievement are	ect beh	aviour towards goals such as power		
	A)	Motives	B)	Drives		
	C)	Habits	D)	Emotions		
25.	Stimu	li that arouse a drive or motive	are cal	lled		
	A)	Instincts	B)	Promoters		
	C)	Incentives	D)	Catalysts		
26.	Urge to attain optimal levels of performance on valued tasks is					
	A)	Affiliation motivation	B)	Task motivation		
	C)	Achievement motivation	D)	Normative motivation		
27.	Freud suggested that behaviour is often driven by motives					
	A) Outside of conscious awareness					
	B) Inside of conscious awareness					
	C) Inside of subconscious awareness					
	D)	Outside of unconscious awar	eness			
28.	Comp	onents of emotions have				
	A) Physiological arousal, subjective feelings, Cognitive processes and behavioural reactions					
	B)	Subjective feelings, Cognitive physiological arousal	e proce	esses, behavioural reactions but no		
	C)	1	tive pro	ocesses, subjective feelings but no		
	D)		ctive fee	elings, behavioural reactions but no		

29.	Hierarchy of needs like that of Maslow is essentially a theory of						
	A)	Emotional gratification	B)	Self realisation			
	C)	Motivation	D)	Self evolution			
30.	Emotional adjustment is very important to						
	A)	Psychological adjustment	B)	Physiological adjustment			
	C)	Social adjustment	D)	Cultural adjustment			
31.	The p	· · · · · · · · · · · · · · · · · · ·		tion is formed in memory is called			
	A)	Storage	B)	Encoding			
	C)	Decoding	D)	Retrieval			
32.	Senso	•	ory info	rmation to be stored for brief durations is			
	A)	Iconic memory	B)	Echoic memory			
	C)	Declarative memory	D)	Procedural memory			
33.	_	term memories for autobiogrand are called	aphical	events and the contexts in which they			
	A)	Semantic memories	B)	Event memories			
	C)	Contextual memories	D)	Episodic memories			
34.	People are given a scrambled word and asked to give the first unscrambled word that comes to mind is called						
	A)	Identification	B)	Anagram			
	C)	Stem completion	D)	Fragment completion			
35.		Implicit or explicit knowledge about memory abilities and effective memory strategies; cognition about memory is known as					
	A)	Meta memory	B)	Encoding specificity			
	C)	•	D)	Beta memory			
36.	The processes of choosing between alternatives; selecting or rejecting available options is						
	A)	Decision deciphering	B)	Decision scanning			
	C)	Decision spanning	Ď)	Decision making			
37.	One of the following tests is most representative of our intelligence						
	A)	Verbal test	B)	Non verbal test			
	C)	Performance test	D)	Non performance test			
38.		A consistent pattern of cyclical body activities, usually lasting 24 hours and determined by an internal biological clock is called					
	A)	Bio rhythm	B)	Brain rhythm			
	C)	Circadian rhythm	D)	Synchronic rhythm			
39.	The H	EEG waves of 3 to 7 cycles pe	er secon	d is representative of			
	A)	Stage 1 sleep	B)	Stage 2 sleep			
	C	Stage 3 sleep	D)	Stage 4 sleep			

40.		ory that conscious awareness of dreaming is learnable skill that enables is to control the direction and content of their dreams is			
	A)	Vivid dreaming	B)	C	
	C)	Awareness dreaming	D)	Contemplative dreaming	
41.		asure of reliability; the degree each parts, such as an odd versus		ch a test yields similar scores across its item is called its	
	A)	Split-half reliability	B)	Odd-Even reliability	
	C)	Internal consistency	D)	Inter item consistency	
42.		ates qualitative constructs with Qualitative measuring	n quant B)		
	C)	Measuring by scaling	D)	Multiple measuring	
43.	Amon	g the parenting styles, the heal	thiest o	one is	
	A)	Authoritative	B)	Authoritarian	
	C)	Permissive	D)	Democratic	
44.		of personality in which scoring well defined rules represent	g and a	dministration are relatively simple and	
	A)	Situational test	B)	Objective test	
	C)	Analog test	D)	Self rating test	
45.			-	ing to do with stress tolerance is	
	A)	Neutrality	B)	Hardiness	
	C)	Optimism	D)	Social support	
46.	views			h low self esteem held strong negative lews of these individuals are not more	
	A)	More abnormal	B)	More ineffective	
	C)	More confused	D)	More rigid	
47.	Modif	ying negative self talk is a tecl	hnique	used in	
	A)	Building mental health	B)	Building Self-performance	
	C)	Building Family health	D)	Building Self-esteem	
48.	In ach	ieving flexible assertive behav	iour, o	ne needs	
	A)	A change in notions	B)	A change in emotionality	
	C)	A change in cognition	D)	A change in attitude	
49.	Forget	tting information because of co	ompetit	tion from other learned material is	
	A)	Negative transference	B)	Conflict	
	C)	Interference	D)	Fatigue	
50.	The st	udy of communication through	h body	movements is known as	
	A)	Non verbal method	B)	Kinesics	
	C)	Body language	D)	Calisthenics	

51.	Reappearance of an extinguished Conditioned Response after the passage of time is known as					
	A)	Response generalization	B)	Spontaneous recovery		
	Ć)	Secondary elaboration	D)	Intermittent response		
52.	_	•		y charged event or experience is		
	A)	Flashlight memory	B)	Explosive memory		
	C)	Chunking	D)	Flashbulb memory		
53.		ncentive to pursue an activity batisfying is technically called	ecause	that activity is inherently compelling		
	A)	Intrinsic motivation	B)	Internal motivation		
	C)	Instinctual motivation	D)	Implied motivation		
<i>5</i> 1	т		1	. 1		
54.	_	s approach to psychoanalytic t				
	A) C)	Psychoanalytical psychology Analytical psychology	у <b>Б</b> )	Psycho-synthesis Collective psychology		
	C)	Anarytical psychology	D)	Conective psychology		
55.	5. The tendency of a Conditioned Response to be weaker or not to occur to Conditioned Stimulus that is dissimilar to the original Conditioned Stimulus is termed					
	A)	Stimulus discrimination	B)	Response discrimination		
	C)	Stimulus familiarity	D)	Response familiarity		
56.		acceptance of individuals for value heir actions is termed? Genuineness Self worth Unconditional positive regar Congruence		d what they are, even if one disagrees		
57.	Most	recent personality theory whic	h descr	ibes personality in terms of multiple		
	sets of complimentary factors					
	A) Eysenck's Multi Dimensional theory					
	B) Cattell's 16 P.F theory					
	C) Jung's Analytical theory					
	D)	McCrae and Costa's Big Fiv	e theor	y		
58.		bility to reason about concrete	object	and relate object and events to a larger		
	A)	Sensorimotor level				
	B)	Preoperational level				
	C)	Concrete operational level				
	D)	Formal operational level				
59.	Amon	ng the etraceors which course th	a most	throataning stross is:		
37.	Allion A)	ng the stressors which cause the Intense stress	B)	Sudden stress		
	C)	Chronic stress	D)	Intermittent stress		
	$\sim$	CIII OIII OU COO	<b>-</b> )			

60.	Adler's cardinal contribution to personality theory is the concept of					
	A)	Creative self	B)	Striving for superiority		
	C)	Organ inferiority	D)	Self realisation		
61.		erspective which believes that opment of their potential is The Existential approach The Humanistic approach The General Systems theory The Positive Psychology app	approa			
62.	Anxie	ety can serve as a useful alarm	that wa	erns us of threat. Thus it is		
	A)	A threatening role	B)	A beneficial role		
	C)	A malevolent role	D)	None of the above		
63.		e's behaviours is named	B)	xplain the causes of their own and other  Attitude theory of compliance  Attribution theory		
64.		er part of the face is registering Affect based attitude blending	g a diffe	ace is registering one emotion and erent emotion is		
65.	A cha	nge in behaviour due to a direc	ct reque	est from another person is		
	A)	Compliance	B)	Conformity		
	C)	Consideration	D)	Contagion		
66.	The d viewe A) C)		of the po B) D)	ersonal motives and expectations of the  Judgmental bias Onlooker bias		
67.		inding that the greater the num ss likely any one of them is to Bystander effect Bystander defacing effect		bystanders who witness an emergency, called Bystander crowd effect Bystander leaderless effect		
68.		ole played by friends and relati tunity to confide is Peer support Contemporary support	ives in p  B) D)	providing advice and help and  Social support  Group support		

69.	The study of how we form impressions of and make inferences about other people is					
	A)	Social impression perception	B)	Social inference perception		
	C)	Socialized perception	D)	Social perception		
70.		concept of the self that emphasiz	zes sep	arateness, internal characteristics and		
	A) 1	Intra independent self	B)	Inter independent self		
	C)	Independent self	D)	Intra-inter independent self		
71.	The b	orain structure that regulates the	body'	s basic life processes is		
	A)	Medulla	B)	Pons		
	C)	Limbic system	D)	Brain stem		
72.		people are required to behave indes largely on	n order	to achieve positive social evaluation		
	A)	Normative system of the cult	ure			
	B)	* *				
	C)	Idiopathic system of the cultu				
	D)	Idiosyncratic system of the cu	ulture			
73.	Model of social influence which assumes that both majorities and minorities are sources and targets of persuasion is					
	A)	Independence model	B)	Dependence model		
	C)	Confrontation model	D)	Conflict model		
74.	Culturally based but often unfounded generalization about groups is termed as a					
	A)	Stereotype	B)	Hasty generalization		
	C)	Prejudice	D)	Belief		
75.	Evaluation of oneself, other people, events, issues and material things with some degree of favour and disfavour is					
	A)	Acceptance	B)	Attitude		
	C)	Halo effect	D)	Prejudice		
76.	Any act performed with the goal of benefiting another person is					
	A)	Altruism	B)	Pro-Socialism		
	C)	Conscientiousness	D)	Pro-social behaviour		
77.	Ego defense mechanism in which individual's conscious attitude and overt					
		viour are opposite to his repress				
	A)	Denial	B)	Projection		
	C)	Reaction Formation	D)	Sublimation		
78.		of muscle coordination is know				
	A)	Apraxia	B)	Agnosia		
	C)	Ataxia	D)	Alexia		

79.	A state of mental confusion, disorientation and extreme difficulty in focusing attention is called					
			D)	D 1: :		
	A)	Dementia	B)	Delirium		
	C)	Amentia	D)	Alzheimer's		
80.	Marri	_	e of dist	torted relationship is known as		
	A)	Marital Skew	B)	Marital Schism		
	C)	Martial Discord	D)	Marital Deterioration		
81.	7	g belief opposed to reality bug evidence to the contrary is t		nined in spite of logical persuasion and		
	A)	Misinterpretation	B)	Delusion		
	C)	Persecution	D)			
	C)	refocution	D)	Misperception		
82.		naviour characterized by gros ssion is seen in	s outbur	ests of rage and physical or verbal		
	A)		rder			
	B)	Aggressive Personality disc				
	C)	•				
	<ul><li>C) Explosive Personality disorder</li><li>D) Hysterical Personality disorder</li></ul>					
83.	A chemical sometimes used in psychotherapy to produce a state of relaxation and					
	suggestibility is					
	A)	Nembutal sodium	B)	Chlorpromazine		
	C)	Benzodiazepine	D)	Sodium Pentothal		
84.	Motor reaction to intense unexpected mild stimuli if a person is hypersensitive is known as					
	A)		B)	Alarm Reaction		
	,	Fight or Flight Reaction	,			
	C)	right of riight Reaction	D)	Suess Reaction		
85.	The pathological reaction of the body to prolonged stress is most aptly called A) Chronic stress reaction B) Psycho physiological reaction					
	C)	Psychosomatic reaction	D)	Stress trait reaction		
86.	The dynamics of phobias is explained as which of the following?  1. Displacement of anxiety 2. Defense against threatening impulses  3. Conditioning and avoidance learning					
	A)	1 & 2 only	B)	1 only		
	C)	1 & 2 only 1 & 3 only	D)	· · · · · · · · · · · · · · · · · · ·		
	C)	1 & 5 only	D)	1, 2, & 3		
87.		_	-	spells, difficulty in breathing, cold		
		nities, belching, nausea, vom	_	c. are		
	A)	Sensory symptoms in Hyst				
	B)	Motor symptoms in Hyster				
	C)	Somatic symptoms in Hyst				
	D)	Visceral symptoms in Hyst	eria			

88.	The DSM classification of psychological disorders has been the work of:							
	A)	•						
	B)	American Psychiatric Associ	ciation					
	C)	World Health Organisation						
	D)	United Nations Educational	, Social	& Cultural Organisation				
89.	Auto	phobia denotes an irrational fe	ear of					
	A)	Automatic fears	B)	Automation				
	C)	Autocracy	D)	Oneself				
90.	The te	echniques of Paradoxical inter	ntion an	d De-reflection are used in				
	A)	Behaviour therapy	B)	Gestalt therapy				
	C)	Logo therapy	D)	Cognitive Behaviour Therapy				
91.			g from g	genetic vulnerability with environmental				
		ors is known as						
	A)	Diathesis-Stress hypothesis						
	B)	Nature – Nurture hypothesis						
	C)	Primary-Predisposition hyp						
	D)	Predisposition-Precipitation	hypoth	esis				
92.		order now described as "a disc						
	A)	Paranoia	B)	Psycho physiological disorders				
	C)	Bipolar disorders	D)	Depression				
93.		<u> </u>	hat is c	alled Tunnel vision which means a kind				
		sinterpretation that						
	A)	Suicide is the only alternative						
	B)	Suicide is the best alternative						
	C)	Suicide is the effective alter	native					
	D)	Suicide is the bold alternative	ve					
94.	-	e who threaten to kill themsel	ves					
	A)	Never do so	B)	Seldom do so				
	C)	Often do so	D)	Rarely do so				
95.	Psych	o-analytic psychotherapy bec	ame gra	adually impractical because				
	A)	Of the long duration for trea						
	B)	B) Of the difficulty to get into the unconscious						
	C)	C) Of the difficulty for dream interpretation						
	D)	Of the inability to overcome	e resista	nce				
96.	A the	capy which believes that all of	f us hav	e within ourselves vast resources for self				
	under	standing and for altering our l	oehavio	ur and that these resources can be				
	tapped	d if proper climate for change	can be	provided is				
	A)	Gestalt therapy	B)	Actualization therapy				
	C)	Existential therapy	D)	Person-Centered therapy				

97.		nsitization uses the following		
	A)	Anxiety hierarchy	B)	Fear hierarchy
	C)	Need hierarchy	D)	Feared object hierarchy
98.	•	vsis that makes use of already	-	
	A)	Secondary analysis	B)	Ex-post facto analysis
	C)	Verification analysis	D)	De-facto analysis
99.	remov	-	-	who behaves in an undesirable way is blaced in an unreinforcing environment
	A)	Aversion	B)	Time out
	C)	Alteration	D)	Time in
100.	Symp are ca	-	hrenia t	that also occur in other mental disorders
	A)	First-rank symptoms	B)	Second-rank symptoms
	C)	Third-rank symptoms	D)	Same rank symptoms
101.		a entry the automated method acy is known as	l of ente	ering data a second time to improve
	A)	Twice entry	B)	Secondary entry
	C)	Dummy entry	D)	Double entry
102.		xperimental technique in which are as to which subjects have Double-blind control		the experimenters and subjects are kept d which treatment is called Double-check control
	C)	Before-after control	D)	Experimenter-subject control
	C)	Before-arter control	D)	Experimenter-subject control
103.				elationship to another independent ow the measures should behave is known
	A)	Criterion related validity	B)	Construct related validity
	C)	Correlated validity	D)	Concept related validity
104.	-	y reasoning that results from ron analyses of group data is	naking	conclusions about individuals based
	A)	Averaging fallacy	B)	Situational fallacy
	C)	Generalising fallacy	D)	Ecological fallacy
105.		npling by people with known area is	or demo	onstrable experience and expertise in
	A)	Expert sampling	B)	Professional sampling
	C)	Informed sampling	D)	Accomplished sampling
106.	Forma	ative evaluations are used to p	orogram	mes
	A)	While they are still hypothe	etical	
	B)	While they are still under co		on
	Ć)	While they are still under do	_	
	Ď)	While they are still under a	-	
			-	

107.	•	sampling method where you salled units for each sub group of Stratified random sampling Subgroup sampling	a popul	ntil you achieve a specific number of lation is known as  Quota sampling  Proportional sampling		
	<b>C</b> )	Subgroup sampling	D)	r toportional sampling		
108.		criterion for fitting a regression res of the residuals from the reg		that we minimize the sum of the line is		
	A)	Latin square	B)	Multiple regression		
	Ć)	Least squares	D)	Moderating regression		
109.		reat to construct validity that ocurrement is called	curs be	cause we use only a single method of		
	A)		B)	Mono-operation bias		
	C)		D)	Mono-assessment bias		
110	T					
110.	In res	search 'mortality threat' means	re hecai	use a significant number of participants		
	A)	end up dying	is occa	use a significant number of participants		
	B)	1 5 6		use a significant number of participants		
	C)			use a significant number of participants		
	D)	-	rs beca	use a significant number of participants		
111.	The 1	aw that refers to laws that perta	in to th	ne general case is known as		
	A)	Nomothetic	B)	Idiographic		
	C)	Homothetic	D)	Panthetic		
112.	A particular type of correlation used when both variables can be assumed to be measured at an interval level of measurement is called					
	A)	Biserial correlation		Person product Moment Correlation		
	C)	Rank order correlation	D)	Point Biserial correlation		
113.		quential numerical response for sely referred to as	mat is s	such as a 1-to-5 rating format is		
	A)	Response inventory	B)	Response format		
	C)	Response schedule	D)	Response scale		
114.	An or		plains a	a phenomenon or a set of phenomena		
	A)	Law	B)	Theory		
	C)	Rule	D)	Regulation		
115.		finition of a variable in terms of mine its presence is known as	f the sp	ecific operation or procedure used to		
	A)	Actuarial definition	B)	Workable definition		
	A) C)	Pragmatic definition	D)	Operational definition		

116.	The spread of the averages around the average of averages in a sampling distribution is known as			
	A)	Standard deviation	B)	Statistical error
	C)	Summated averages error	D)	Standard error
117.	The initial phase of research, in which observations, beliefs, information and general knowledge lead to a new idea or a different way of thinking about some phenomenon is			
	A)	Context of discovery	B)	Serendipity
	C)	Creativity	D)	Contest of justification
118.	The doctrine that all events – physical, behavioural and mental are determined by specific causal factors that are potentially knowable is called			
	A)	Rationalism	B)	Determinism
	C)	Modernism	D)	Positivism
119.	A procedure conducted at the end of an experiment in which the researcher provides the participant with as much information about the study as possible is known as			
	A)	Systematic briefing	B)	Comprehensive briefing
	C)	Debriefing	D)	Summated briefing
120.	The premise that knowledge should be acquired through observation is known as			
	A)	Empiricism	B)	Observationism
	C)	Objectivism	D)	Experientialism
