 A) where are they built B) in which they are built
 C) where they're build D) in where they are built
45. The lens used in a camera carries out ----- as the lens of the eye.
 A) same function B) a same function
 C) the function same as D) the same function

Read the following paragraph carefully and answer questions 46 - 50

"We could have dismissed the petition on the short ground that.. the right to life guaranteed by Article 21 of the Constitution does not include the right to die," observe Justice Markandey Katju and Gyan Sudha Misra sagely in the Aruna Shanbaug case. "However, in view of the importance of the issues involved we decided to go deeper into the merits of the case." Negotiating the grey ethical areas relating to euthanasia in a humane, progressive, and persuasive way, this detailed Supreme Court judgment lays down a broad legal framework for dealing with a subject that has not received the attention it deserves from the legislature. The court's decision on the immediate matter at hand – the plea that Aruna Shanbaug, the nurse who has been lying in a vegetative state on a Mumbai hospital bed since she was brutally raped and strangled in 1973, should be allowed to die- is largely based on medical evidence. The evidence furnished by a panel of experts showed that while Ms Shanbaug may be in a permanent vegetative state (PVS), she is neither brain dead nor in a coma. The court also went into the question of who could initiate the move to withdraw life support to a person in PVS. Its answer is that such decisions can be taken by parents, spouses, and close relatives or, in their absence (as in Ms Shanbaug's case), the "next friend". Justice Katju and Misra held that her next friend was clearly KEM Hospital staff, "who have been amazingly caring for her day and night for so many long years," and not the petitioner who urged that Aruna be allowed to die in dignity.

46. How is the petitioner, who moved the Supreme Court for allowing Ms Shanbaug to die in dignity, related to Ms. Shanbaug?
- The petitioner is her spouse
 - The petitioners are the staff of the KEM Hospital, Mumbai
 - The petitioner is a person who claims to be her next friend
 - The petitioner is a doctor who treated her
47. What is euthanasia?
- The state of lying unconscious for a very long period
 - Mercy killing
 - The state of 'brain dead' or being in coma for a very long period
 - Humane dealing towards people who are suffering from prolonged illness
48. The Court's decision on the petition for ending the life of the nurse is based on which one of the following?
- The ethical and moral issues involved in the case
 - The rights guaranteed under Article 21 of the Constitution of India
 - ~~The petition of the staff of KEM Hospital~~
 - The report of the panel of experts
-
49. The phrase 'grey ethical areas' in this paragraph means:
- Ethical issues that are not clearly defined
 - Ethically sound but legally wrong issues in the case
 - Unhealthy ethical practices
 - Ethical issues that we fear to discuss in public
50. In the opinion of the honourable judges, what is the subject that has not received the attention it deserves from the legislature?
- Article 21 of the Constitution
 - The pathetic condition of Ms Shanbaug
 - Mercy killing and related issues
 - Safety of working women
51. Olive Ridley is name of an endangered species of -----
- Sparrows
 - Aborigines of Australia
 - Freshwater fish in the Ganges
 - Turtles
52. The ozone layer which filters the harmful ultraviolet radiations from the sun is approximately above ----- kilometres from the surface of the earth
- 5
 - 60
 - 10
 - 2
53. Which company manufactured the first handheld mobile phone?
- Motorola
 - Nokia
 - Sony Ericsson
 - Apple
54. In the Mumbai terrorist attacks of 1988, how many people were killed?
- 87
 - 284
 - 412
 - 166
55. Babur, the founder of Mughal empire in India, was born in which country?
- Afghanistan
 - Egypt
 - Uzbekistan
 - Spain

56. *Malayali Memorial* was a memorandum submitted to the Maharaja of Travancore, in 1891, signed by over 10,000 people. What was the main demand in that memorandum?

 D) Email with virus purposely sent to destroy the data in a computer

- 377
76. Find the missing number in the following series:
51, 53, --, 59, 61, 67
A) 55 B) 57 C) 56 D) 58
77. Which one of the following is the smallest number to which if we add 9, it becomes completely divisible by 12, 15 and 20? ✓ in
A) 351 B) 171 C) 231 D) 180
78. If a man sells oranges at the rate of Rs.10 a dozen, he incurs a loss of 10 %. If he wants to gain a profit of 8%, at what rate should he sell one dozen oranges?
A) Rs.14.5 B) Rs.11 C) Rs.13 D) Rs.12
79. If the average of two numbers is X and if one of the number is Y, what is the other number?
A) $2X - Y$ B) $(X - Y)/2$ C) $(X + Y)/2$ D) $2Y - X/2$
80. If one-third of marks of a student for General Science is equal to half of his marks in Mathematics and if he gets 120 marks for the two subjects, how many marks has he got for Mathematics?
A) 45 B) 48 C) 54 D) 72
81. Suresh is 13 years older than his sister. If Suresh was twenty five years old in 1985, in which year was he born?
A) 1972 B) 1960 C) 1947 D) 1958
82. Mohan, who is half efficient as Krishna, will need 18 days to finish a work if he does it alone. If Mohan and Krishna do the same work together, how long will they take to complete the work?
A) 12 days B) 9 days C) 6 days D) 7 days
83. 1.2 divided by 0.02 is equal to ✓
A) 60 B) 0.6 C) 6 D) 0.06
84. A train traveling at 72 kmph completely crosses a platform in 40 seconds and a man standing on the platform in 22 seconds. What is the length of the platform in meters? ✓
A) 600 mtrs B) 350 mtrs C) 420 mtrs D) 360 mtrs
85. A student was asked to find $1/14$ of a certain number. By mistake, he found $1/4$ of that number and his answer was 75 greater than the correct answer. What was the number? ✓
A) 476 B) 420 C) 364 D) 350
86. Rema's monthly salary is Rs.9000. Out of this, she deposits Rs.1500 in a post office recurring savings account and she pays a monthly rent of Rs.2500. She spends Rs.270 for buying cosmetics. What percent of her monthly pay does she spend for cosmetics?
A) 4.5 B) 8 C) 12 D) 3

87. How many numbers are there between 250 and 1000 which are exactly divisible by 4, 5 and 7?
 A) 8 B) 12 C) 6 D) 19
88. 2.5% of 0.25 is
 A) 0.625 B) 0.0625 C) 0.00625 D) 0.125
89. A second hand car dealer sells two of his cars for Rs.150000 each. In this deal he gets 20% profit in one sale and 20% loss in the other. Find his total loss or gain?
 A) No loss, no gain B) Loss of Rs.12500
 C) Profit of Rs.7500 D) Profit of Rs.5800
90. A man borrowed an amount of Rs.12000 from a person at the rate of 13% simple interest. After $3\frac{1}{2}$ years he settled the account by paying Rs.5000 and a gold chain. Find the value of the gold chain.
 A) Rs.12460 B) Rs.13500 C) Rs.11860 D) Rs.10900
-
91. The average cost of production of one litre of milk in summer is Rs.12.50. In rainy season the cost of production falls to Rs.10.75 per litre. What is the percentage of the decrease in cost of production during the rainy season?
 A) 14 B) 12.5 C) 15 D) 10
92. From a collection of pens and pencils if you pick up 5 pens and 3 pencils you have to pay Rs.49 and if you pick up 10 pens and 8 pencils you have to pay Rs.104. How much will you have to pay if you pick up 3 pens and 5 pencils?
 A) Rs.58 B) Rs.39 C) Rs.42 D) Rs.35
93. The simple interest for Rs.1250 for a period of 3 years is Rs.150. Find the rate of interest.
 A) 3 B) 5 C) 7.5 D) 4
94. An empty cylindrical tank with a height of 3 metres and diameter of 2.8 metres (inner dimensions) is to be completely filled with water from smaller tanks of capacity 1.8 cubic metres filled with water. Water from how many such small tanks are required to fill the empty tank completely?
 A) 16 B) 24 C) 33 D) 11
95. A certain amount deposited in a bank at compound interest amounts to Rs.17640 in three years and to Rs.18522 in four years. Find the rate of interest.
 A) 8% B) 4% C) 5% D) 4.5%
96. The average of three numbers is 158. If the largest number is 240 and the difference between the other two numbers is 34, find the smallest number.
 A) 100 B) 40 C) 130 D) 125
97. A, B and C start a partnership with the agreement to share profits in proportion to their investments. A invests Rs.50000 for 2 years, B invests Rs.40000 for 15 months and C invests Rs.30000 for 10 months. If there is a profit of Rs.38500 after two years, find the share of B.
 A) Rs.12500 B) Rs.13000 C) Rs.11000 D) Rs.14500

98. A tap fills $\frac{4}{7}$ th of a tank in 16 minutes. How much further time is required to fill the tank completely?
 A) 27 minutes B) 15 minutes
 C) 21 minutes D) 12 minutes
99. The average height of 40 girls in a class of 48 is 150 cm. The average height of the remaining girls of the class is 162 cm. What is the average height of the whole class?
 A) 152 cm B) 154 cm C) 156.5 cm D) 153 cm
100. A man takes 8 minutes to travel a distance of 1.7 Km in a bicycle. What is his speed of travel in Km/hour?
 A) 14.50 B) 12.75 C) 10.85 D) 15.2
101. The commercial arm of ISRO which is involved in the controversy regarding misuse of S band electromagnetic spectrum:
 A) Devas Multimedia Pvt. Ltd B) Antrix Corporation Ltd
 C) Aerospace Industries Ltd D) Brahmos Aerospace Pvt. Ltd
102. Rafael Nadal was selected as the Laureus World Sportsman of the Year 2011. Where is the headquarters of the Laureus World Sports Academy?
 A) Paris B) New York
