Direction:- Read the following passages carefully and answer the question given below.

We are tempted to assume that technological progress is the real progress and that material success is the criterion of civilisation. If the eastern people become fascinated by machines and techniques and used them as western nations do, to build industrial organisations and large military establishments, they will get involved in the power politics and drift in to the danger of death. Scientific and technological civilisation brings opportunities and great rewards but also great risks and temptations. If machines get in to the saddle, all our progress will have been in vain. The problem facing us is a universal one. Both east and west are threatened with the same danger and face the same destiny. Science and technology are neither good and nor bad. They are not to be tabooed but tamed and assigned their proper place. They become dangers only if they become idols.

128. What is man tempted to assume ?
 (a) Western nations are superior to eastern nations
 (b) Science and technology pose no danger to humanity
 (c) Technological progress is the real progress
 (d) As such, there is nothing wrong with machines
129. When do science and technology become dangerous ?
 (a) When they become idols
 (b) When they are used with temptation
 (c) When their advantages are not used judiciously
 (d) When it is assumed that material success is the criterion for civilisation
130. What will happen if eastern people use machines ?
 (a) It will bring great opportunities and rewards to them
 (b) It will show the victory of mind over matter
 (c) They will realise that it is not an end in itself
 (d) They will get involved in politics and drift in to the danger of death
131. Which of the following statements is/are true in the context of the passage ?
 1. Science and technology are neither good nor bad
 2. Through machines, man can achieve all progress
 3. Science and technology bring great risks and temptations
 (a) 1 and 2 (b) 1 and 3 (c) 2 and 3 (d) 1,2 and 3
