

APRIL 2001

[KD 1523]

Sub. Code : 3031

DIPLOMA IN ANAESTHESIOLOGY EXAMINATION.

(New Regulations)

Part II

Paper I — ANAESTHESIOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Describe the preoperative assessment of a 1 year old child presenting with history of foreign body aspiration posted for Bronchoscopy. How will you anaesthetise this child based on pre-operative status?
(25)
 2. A 20 year old primi at term is diagnosed as rupture uterus, in shock and is posted for emergency laparotomy. Outline your anaesthetic management. (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Delirium during emergence from anaesthesia – evaluation and management
 - (b) Sellick's Manoeuvre
 - (c) Retrograde Intubation
 - (d) Supraclavicular Brachial plexus block
 - (e) Failed Intubation Drill.
-

NOVEMBER 2001

[KE 1523]

Sub. Code : 3031

DIPLOMA IN ANAESTHESIOLOGY EXAMINATION.

(New Regulations)

Part II

Paper I — ANAESTHESIOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Describe the Anaesthetic management of Laproscopic Cholecystectomy. (25)
 2. Discuss the Anaesthetic management of a case of suspected 'rupture' of pregnant uterus posted for Emergency Surgery. (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) O.P. Poisoning
 - (b) Glucose Tolerance Test
 - (c) Caudal Epidural
 - (d) Fentanyl
 - (e) Haemophilia.
-

MARCH 2002

[KG 1523]

Sub. Code : 3031

DIPLOMA IN ANAESTHESIOLOGY EXAMINATION.

(New Regulations)

Part II

Paper I — ANAESTHESIOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Describe the Anaesthetic Management of suspected splenic rupture posted for splenectomy after a blunt injury abdomen. (25)
 2. Discuss the Anaesthetic management of a case of Ectopic Pregnancy posted for emergency Laparotomy. (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Adhesive Arachnoiditis.
 - (b) Glasgow coma scale.
 - (c) Human insulins.
 - (d) Ropivacaine.
 - (e) D.I.C.
-

SEPTEMBER 2002

[KH 1523]

Sub. Code : 3031

DIPLOMA IN ANAESTHESIOLOGY EXAMINATION.

(New Regulations)

Part II

Paper I — ANAESTHESIOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Describe the pre anaesthetic evaluation, plan and control of untreated diabetic coming for emergency surgery. (25)
 2. Give an account of the problems in a baby having tracheoesophageal fistula. What is your plan of anaesthetic management? (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Von Willebrand's disease
 - (b) TURP syndrome
 - (c) Thyroid storm
 - (d) Anaesthesia for post tonsillectomy bleeding
 - (e) Hazards of long term cortisone therapy.
-

APRIL 2003

[KI 1523]

Sub. Code : 3031

DIPLOMA IN ANAESTHESIOLOGY EXAMINATION.

(New Regulations)

Part II

Paper I — ANAESTHESIOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Describe the anaesthetic considerations in a patient with aortoiliac occlusive disease coming for graft surgery. (25)
 2. Discuss the anaesthetic management of a four day old neonate coming for repair of congenital diaphragmatic hernia. (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Intrapleural analgesia
 - (b) Evoked Potentials
 - (c) Fast Tracking
 - (d) Cerebral Protection
 - (e) Neurolept malignant syndrome.
-

OCTOBER 2003

[KJ 1523]

Sub. Code : 3031

DIPLOMA IN ANAESTHESIOLOGY EXAMINATION.

(New Regulations)

Part II

Paper I — ANAESTHESIOLOGY

Time : Three hours Maximum : 100 marks
Theory : Two hours and Theory : 80 marks
 forty minutes
M.C.Q. : Twenty minutes M.C.Q. : 20 marks

M.C.Q. must be answered **SEPARATELY** on the Answer Sheet provided as per the instructions given on the first page of the M.C.Q. Booklet.

Answer ALL questions.

Draw suitable diagrams wherever necessary.

I. Essay : (2 × 15 = 30)

(1) Discuss the preoperative preparation for a patient with pheochromocytoma and anaesthetic management for its resection.

(2) Describe the physiology of one-lung-ventilation and write briefly on the development of tubes for one-lung ventilation, mentioning available equipment.

II. Short Notes : (10 × 5 = 50)

- (1) Stellate ganglion block.
- (2) Malignant hyperpyrexia.
- (3) Hyponatremia.
- (4) Acid aspiration prophylaxis.
- (5) Combined-spinal Epidural blocks.
- (6) Acute Normovolemic hemodilution.
- (7) HIV and the anaesthesiologist.
- (8) Fluid resuscitation of a patient with 40%, II° burns.
- (9) Anaesthesia for a patient with permanent pacemaker.
- (10) Anaesthesiologist's role in Myasthenia Gravis.

AUGUST 2004

[KL 1523]

Sub. Code : 3031

DIPLOMA IN ANAESTHESIOLOGY EXAMINATION.

(New Regulations)

Part II

Paper I — ANAESTHESIOLOGY

Time : Three hours

Maximum : 100 marks

**Theory : Two hours and
forty minutes**

Theory : 80 marks

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

Answer ALL questions.

Draw suitable diagrams wherever necessary.

I. Essay : (2 × 15 = 30)

(1) Discuss the anaesthetic management of Renal Transplantation.

(2) Discuss the anaesthetic management of a patient with thyrotoxic goitre.

II. Short notes : (10 × 5 = 50)

(a) Endorphins

(b) TURP (Trans Urethral Resection of Prostate)

(c) Propofol

(d) Newer Insulins

(e) Fibre optic laryngoscopy

(f) Precautions for a patient with Hepatitis B

(g) Pain relief for labour

(h) Glycated haemoglobin

(i) Anaesthesia for rigid bronchoscopy in a child

(j) Hydroxy ethyl starch.

FEBRUARY 2005

[KM 1523]

Sub. Code : 3031

DIPLOMA IN ANAESTHESIOLOGY EXAMINATION.

(New Regulations)

Part II

Paper I — ANAESTHESIOLOGY

Time : Three hours

Maximum : 100 marks

Theory : Two hours and
forty minutes

Theory : 80 marks

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

Answer ALL questions.

Draw suitable diagrams wherever necessary.

I. Essay : (2 x 15 = 30)

(1) Discuss the etiology and management of intra operative and post operative hypotension.

(2) Discuss the perioperative anaesthetic management of KASAI procedure for extrahepatic biliary atresia.

II. Short Notes : (10 x 5 = 50)

- (a) Intra operative Anaesthetic Record.
- (b) Stages of Anaesthesia
- (c) Malpositioned Double lumen tube
- (d) Intra operative and post operative Pulmonaryoedema.
- (e) Wake up testing.
- (f) Preparation for separation from Cardiopulmonary Bypass.
- (g) Cross clamping of Descending Thoracic Aorta.
- (h) Post operative Stridor.
- (i) Post anaesthetic ALDRETE RECOVERY SCORE.
- (j) Delayed complications of Neuraxial block.

MARCH 2006

[KO 1523]

Sub. Code : 3031

DIPLOMA IN ANAESTHESIOLOGY EXAMINATION.

ANAESTHESIOLOGY

Time : Three hours

Maximum : 100 marks

Theory : Two hours and

Theory : 80 marks

forty minutes

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

Answer ALL questions.

Draw suitable diagrams wherever necessary.

I. Essay : (2 × 15 = 30)

(1) Discuss the pathophysiology of diabetic ketoacidosis (DKA). What is your anaesthetic management of a 60 yr old patient with DKA coming for emergency laparotomy?

(2) Describe the anaesthetic management and complications associated with closed mitral valvotomy.

II. Short notes : (10 × 5 = 50)

(a) Stellate ganglion block

(b) High frequency jet ventilation

(c) Digitalis

(d) TURP syndrome

(e) Blood substitutes

(f) Carbon dioxide absorber system

(g) Transoesophageal Echocardiography

(h) Laryngeal mask airway

(i) Scoline apnoea

(j) Ralph waters.

MARCH 2007

[KQ 1523]

Sub. Code : 3031

DIPLOMA IN ANAESTHESIOLOGY (D.A.)
EXAMINATION.

Paper II — ANAESTHESIOLOGY

Common to

(Candidates admitted from 1993–1994 onwards)

and

(Candidates admitted from 2004–2005 onwards)

Time : Three hours

Maximum : 100 marks

Theory : Two hours and
forty minutes

Theory : 80 marks

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

Answer ALL questions.

Draw suitable diagrams wherever necessary.

I. Long Essay :

1. A new born infant with a large encephalocele is posted for corrective surgery. Discuss perioperative anaesthetic management. (20)

2. Discuss anaesthetic management of a young lady with 32 weeks amenorrhoea, vaginal bleeding, abdominal pain and foetal distress posted for caesarean section. (15)

3. Discuss "The Three Legged Stool" of prethoracotomy respiratory assessment. (15)

II. Write Short notes on : (6 × 5 = 30)

(a) Perioperative glucocorticoid Replacement Therapy.

(b) Sodium Nitroprusside Toxicity.

(c) Breast Block.

(d) Post operative care of transternal thymectomy patient.

(e) Protamine Reaction.

(f) Post operative Nausea and Vomiting.

MARCH 2008

[KS 1523]

Sub. Code : 3031

DIPLOMA IN ANAESTHESIOLOGY (D.A.) EXAMINATION.

Paper II — ANAESTHESIOLOGY

(Common to all regulations)

Q.P. Code : 343031

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

Draw suitable diagrams wherever necessary.

- I. Write Essay questions on : (2 × 20 = 40)
- (1) Discuss the pathophysiology of congestive cardiac failure. Discuss the plan of management for non-cardiac surgery. (20)
 - (2) Describe in detail the principles of management of six month old child coming for cleft-lip repair. (20)
- II. Write short notes on : (10 × 6 = 60)
- (1) Hypoxic pulmonary vasoconstriction
 - (2) TURP syndrome
 - (3) Occulo-cardiac reflex
 - (4) Brochospasm during anaesthesia
 - (5) Treatment of post-spinal headache
 - (6) Temporomandibular ankylosis
 - (7) Fluid challenge
 - (8) Tourniquet effects
 - (9) Attenuation of pressor response during intubation
 - (10) Thyroid crisis.
-

September 2008

[KT 1523]

Sub. Code: 3031

DIPLOMA IN ANAESTHESIOLOGY EXAMINATION.

Paper II –ANAESTHESIOLOGY

(Common to all candidates)

Q.P. Code : 343031

Time : Three hours

Maximum : 100 marks

Draw suitable diagram wherever necessary.

Answer ALL questions.

I. Essay questions :

(2 X 20 = 40)

1. Discuss pathophysiology and anaesthetic management of eclampsia patient coming for caesarian section.
2. Discuss in detail the anaesthetic problems encountered during posterior cranial fossa surgery.

II. Write short notes on :

(10 X 6 = 60)

1. Laryngeal mask airway.
 2. Flowmeters.
 3. Magnesium.
 4. Cauda equina syndrome.
 5. Fat embolism.
 6. Diabetic keto acidosis.
 7. SIMV.
 8. Transesophageal echocardiography.
 9. Aminocaproic acid.
 10. Anaesthesia for cataract surgery.
-

MARCH -2009

[KU 1523]

Sub. Code: 3031

DIPLOMA IN ANAESTHESIOLOGY EXAMINATION.

Paper II –ANAESTHESIOLOGY

(Common to all candidates)

Q.P. Code : 343031

Time : Three hours

Maximum : 100 marks

Draw suitable diagram wherever necessary.

Answer ALL questions.

I. Essay questions : (2 X 20 = 40)

1. Describe various types of tracheo esophageal fistula. Discuss anaesthetic management of commonest type.
2. How do you investigate a jaundiced patient? Discuss anaesthetic management of a patient with portal hypertension for shunt procedure.

II. Write short notes on : (10 X 6 = 60)

1. Mitral stenosis patient coming for dental extraction. Role of anaesthesiologists.
2. Fresh frozen plasma.
3. ARDS.
4. Central venous cannulation.
5. Coeliac plexus block.
6. HELLP syndrome.
7. Fentanyl.
8. Jet ventilation.
9. Orthopnea.
10. Anion gap.

September - 2009

[KV 1523]

Sub. Code: 3031

DIPLOMA IN ANAESTHESIOLOGY EXAMINATION.

Paper II –ANAESTHESIOLOGY

(Common to all candidates)

Q.P. Code : 343031

Time : Three hours

Maximum : 100 marks

Draw suitable diagram wherever necessary.

Answer ALL questions.

I. Essay questions : (2 X 20 = 40)

1. Discuss the anaesthetic considerations in managing a renal transplant recipient.
2. 40 yrs old lady with severe contracture of neck caused by burns is posted for release of contracture. Discuss the different methods that can be adopted for securing the airway.

II. Write short notes on : (10 X 6 = 60)

1. Pre operative preparation of a patient with pheochromocytoma for surgery.
2. Bier's block.
3. Problems with prone positioning.
4. Post operative hypoxia.
5. Local anaesthetic toxicity.
6. Anaesthesia for obesity.
7. Patient controlled analgesia.
8. Aminocaproic acid.
9. Thyroid crisis.
10. Post extubation stridor in children.

March 2010

[KW 1523]

Sub. Code: 3031

DIPLOMA IN ANAESTHESIOLOGY EXAMINATION

ANAESTHESIOLOGY

(Common to all candidates)

Q.P. Code : 343031

Time : Three hours

Maximum : 100 marks

Draw suitable diagram wherever necessary

Answer ALL questions

I. Essay questions :

(2 x 20 = 40)

1. Discuss the pre-operative preparation, anaesthetic management and problems encountered in a 14 year old male for scoliosis correction surgery.
2. Discuss post operative pain relief in children.

II. Write short notes on :

(10 x 6 = 60)

1. Awareness.
2. Failed intubation drill.
3. Coronary circulation.
4. Causes of post operative hypoxia.
5. Intra operative bronchospasm.
6. Glasgow coma scale.
7. One lung ventilation.
8. Oculo-cardiac reflex.
9. Modalities to reduce intra cranial pressure.
10. Indications and contra indications for regional anaesthesia.

September 2010

[KX 1523]

Sub. Code: 3031

DIPLOMA IN ANAESTHESIOLOGY (D.A.) EXAMINATION.

**Part II-Paper I for Candidates admitted upto 2003-04 & Candidates admitted
from 2008-09 onwards**

And

Paper II for Candidates admitted from 2004-05 to 2007-08

ANAESTHESIOLOGY

Q.P. Code : 343031

Time : Three hours

Maximum : 100 marks

Draw suitable diagram wherever necessary.

Answer ALL questions.

I. Essay questions :

(2 X 20 = 40)

1. Enumerate the differences between adult and paediatric airway. Discuss the anaesthetic management of pyloric stenosis for pyloromyotomy.
2. Discuss the preoperative evaluation and anaesthetic management of a 55 years old lady with IHD posted for elective abdominal hysterectomy.

II. Write short notes on :

(10 X 6 = 60)

1. Anesthesia for obesity.
2. Failed intubation drill.
3. Postoperative shivering.
4. Causes of bradycardia under spinal anesthesia and its management.
5. Airway problems in rheumatoid arthritis.
6. Post extubation stridor in a 2 years old child.
7. Anesthesia for cataract surgery.
8. Laryngeal mask airway.
9. Monitored anesthesia care.
10. Postoperative pain relief in children.

APRIL 2011

[KY 1523]

Sub. Code: 3031

DIPLOMA IN ANAESTHESIOLOGY (DA) EXAMINATION

ANAESTHESIOLOGY

Q.P. Code : 343031

Time : 3 hours
(180 Min)

Maximum : 100 marks

Answer ALL questions in the same order.

I. Elaborate on :

| | Pages (Max.) | Time (Max.) | Marks (Max.) |
|--|-----------------|----------------|-----------------|
| 1. Describe the clinical features, methods of investigations, preanaesthetic preparation and anesthetic management of a case of pleochromacytoma. | 11 | 35 | 15 |
| 2. A One year old child is brought to the casualty with restlessness, cyanosis, tachypnea and a history suggestive of foreign body aspiration. Discuss the preoperative assessment and anaesthetic management for removal of foreign body. | 11 | 35 | 15 |

II. Write notes on :

| | | | |
|---|---|----|---|
| 1. Jehovah's Witness. | 4 | 10 | 7 |
| 2. Malignant hyperpyrexia. | 4 | 10 | 7 |
| 3. Goldman's multifactorial cardiac risk index. | 4 | 10 | 7 |
| 4. Non-ketotic hypersmolar coma. | 4 | 10 | 7 |
| 5. APGAR Score. | 4 | 10 | 7 |
| 6. TURP Syndrome. | 4 | 10 | 7 |
| 7. Wake up test. | 4 | 10 | 7 |
| 8. Pain relief in case of # Femur. | 4 | 10 | 7 |
| 9. Myasthenic crisis. | 4 | 10 | 7 |
| 10. Airway problems in Acromegaly. | 4 | 10 | 7 |
