

[AK 231]

APRIL 1996

M.S. DEGREE EXAMINATION.

Branch VI — Oto-Rhino-Laryngology

(Revised Regulations)

Part II

Paper II ENT INCLUDING HEAD AND NECK ONCOLOGY

Time Three hours

Maximum 100 marks

Answer ALL questions.

1. Describe the mechanism of nasal allergy. How will you investigate such a case. (25)
2. Describe the granulomatous lesions you come across in your speciality. (25)
3. Write short notes on : (5 × 10 = 50)
 - (a) Fungal infections in E.N.T.
 - (b) Manifestations of AIDS in E.N.T
 - (c) Proptosis of Rhinogenic origin.
 - (d) Non-neoplastic lesions of larynx.
 - (e) Scleroma of larynx.

MP 207

APRIL 1997

M.S. DEGREE EXAMINATION

Branch IV - E.N.T.

(Revised Regulations)

Part II

Paper II - E.N.T. INCLUDING HEAD AND
NECK ONCOLOGY

Time: Three hours

Max.marks:100

Answer All Questions

Describe the causes, classification (VICC)
clinical features and treatment of naso-
pharyngeal carcinoma. (25)

2. Describe the pathology, clinical features,
investigations and management of glomus
jugulare tumours. (25)

3. Write briefly on:

(a) Reinke's oedema

Staphylococcal infections in E.N.T

(c) Septoplasty

(d) Bat ears

(e) Oesophageal motility disorders.

(5x10=50)

MS 205 OCTOBER 1997

M.S. DEGREE EXAMINATION

Branch IV - E.N.T.

(Revised Regulations)

Part II

Paper II - E.N.T. INCLUDING HEAD AND
NECK ONCOLOGY

Time: Three hours

Max. marks:100

Answer All Questions

1. Describe the role of different types of flaps in head and neck reconstructive surgery. (25)
2. Discuss in detail the management of Occult primary neoplasm in Oto-rhinolaryngology. (25)
3. Write briefly on:
 - (a) Circulating markers in head and neck cancer
Trans-sphenoidal hypophysectomy
 - (c) Phonosurgery
Photodynamic therapy
Oncogenes in E.N.T.

(5x10=50)

SV 220 APRIL 1998

M.S. DEGREE EXAMINATION

Branch IV - E.N.T.

(Revised Regulations)

Part II

Paper II - E.N.T. INCLUDING HEAD AND
NECK ONCOLOGY

Time: Three hours

Max.marks:100

Answer All Questions

1. Discuss the various conservative procedures in treatment of laryngeal cancer. (25)
2. Discuss the various salivary tumours and their management. (25)
3. Write briefly on:
 - (a) C.S.F. Rhinorrhoea
 - (b) Glomus jugulare
 - (c) Nasal septal perforation
 - (d) Middle ear prostheses
 - (e) Laryngocoele.

(5x10=50)

[SM 220] OCTOBER 1998

M.S. DEGREE EXAMINATION.

Branch IV — E.N.T.

(Revised Regulations)

Part II

**Paper II — E.N.T. INCLUDING HEAD AND
NECK ONCOLOGY**

Time Three hours Maximum : 100 marks

Answer ALL questions.

1. Describe the aetiopathology, spread and surgical treatment of Angiofibroma of nasopharynx. (25)
2. Describe the causes, investigations and management of a mobile upper deep cervical lymphnode metastasis. (25)
3. Briefly write on : (5 × 10 = 50)
 - (a) Surgical approaches to Vidian – Neurectomy.
 - (b) Ringertz tumour.
 - (c) Multiple Papilloma larynx.
 - (d) Malignant otitis externa.
 - (e) Carcinoma of tonsil.

[SG 220] APRIL 1999 Sub. Code : 2077

M.S. DEGREE EXAMINATION.

Branch IV — E.N.T.

(Revised Regulations)

Part II

Paper II — E.N.T. INCLUDING HEAD AND NECK
ONCOLOGY

Time : Three hours Maximum : 100 marks

1. Discuss the complications of major head neck surgery. (25)
2. Describe the various surgical approaches to the internal auditory meatus. (25)
3. (a) Role of angiography in head neck lesions.
(b) Manifestations of AIDS in ENT.
(c) Lateral wall of the nose.
(d) Middle ear ventilating tubes.
(e) Applications of laser surgery in ENT.
(5 × 10 = 50)

OCTOBER 1999

[KA 220]

Sub. Code : 2077

M.S. DEGREE EXAMINATION.

(Revised Regulations)

Branch IV — E.N.T.

Part II

**Paper II — E.N.T. INCLUDING HEAD AND NECK
ONCOLOGY**

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Describe the various methods of rehabilitation of a laryngectomised patient. (25)
2. Describe the clinical features, investigations and different methods of management of a carotid body tumour. (25)
3. Write short answers on : (5 × 10 = 50)
 - (a) Haemangio pericytoma in E.N.T.
 - (b) Tip plasty
 - (c) Anaerobic infections in E.N.T.
 - (d) Obstructive emphysema
 - (e) Parapharyngeal abscess.

[KB 220] APRIL 2000

Sub. Code : 2229

M.S. DEGREE EXAMINATION.

(Revised Regulations)

Branch IV — E.N.T.

Part II

Paper II — E.N.T. INCLUDING HEAD AND NECK
ONCOLOGY

Time : Three hours, Maximum : 100 marks

Answer ALL questions.

1. Mention the various granulomatous lesions of the nasal cavity and elaborate on the clinical features and management of a case of Mid-line granuloma of the nose. (25)
2. Describe the clinical features and management of a case with malignancy of Maxillary sinus. Outline the various classifications used in staging the disease. (25)
3. Write briefly on : (5 × 10 = 50)
 - (a) Grico-pharyngeal myotomy
 - (b) Bogart-Bacall syndrome
 - (c) Bradylalia
 - (d) Dietary chemo-prevention in Head and Neck malignancy
 - (e) Indications and limitations of flexible bronchoscopy.

OCTOBER 2000

[KC 220]

Sub. Code : 2229

M.S. DEGREE EXAMINATION.

Branch IV — E.N.T.

(Revised Regulations)

Part II

Paper II — E.N.T. INCLUDING HEAD AND NECK
ONCOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions

1. Give an account of the TNM classification of a malignant lesion of the larynx. Broadly indicate the clinical features and management of the above condition. Discuss precisely the role and limitations of various types of conservative laryngectomies in the management (25)
2. Outline the anatomy of parapharyngeal space. Indicate the common space occupying lesions encountered in the space. Describe the clinical features and various surgical approaches in the management of parapharyngeal tumours. (25)
