

February 2009

[KU 817]

Sub. Code: 4791

B.Sc (Nursing) DEGREE EXAMINATION
(Revised/Modified Regulations)
Fourth Year /Eighth Semester
Paper III/I – MIDWIFERY
Q.P. Code : 664791

Time : Three hours

Maximum : 150 marks

Answer ALL questions.

I. Essays: (50)

1. a) Define multiple pregnancy. (1)
b) Describe the types of twins. (3)
c) Discuss the complications associated with multiple pregnancy. (6)
d) Explain the care of the mother and the preterm twins during the postnatal period. (10)
2. Define normal labour. Explain the nursing management during the first stage of labour. (15)
3. List the indications for caesarean section and explain the pre and post operative management of patient undergoing caesarean section. (15)

II. Write Short Notes on : (4 x 10 = 40)

1. RCH programme.
2. Postpartum Haemorrhage.
3. Genetic counselling.
4. Role of nurse midwife in preventing anaemias.

III. Write Short Notes on : (6 x 5 = 30)

1. Maternal mortality.
2. Indicators of foetal well being.
3. Amniocentesis.
4. Foetal distress.
5. Phototherapy.
6. Functions of placenta.

III. Short Answer Questions:

(15 x 2 = 30)

1. Name the bones of pelvis.
2. What are the positive signs of pregnancy.
3. Name four malpresentations.
4. What are the signs of third stage of labour?
5. What is Hegar's sign?.
6. Define maternal mortality rate.
7. Types of lochia.
8. Define ectopic pregnancy.
9. Mention four effects of diabetes on pregnancy.
10. Mention two clinical manifestations of hemolytic diseases of newborn.
11. Placenta previa.
12. Name the types of episiotomy.
13. Name any two drugs used for medical induction of labour.
14. Name any two absolute contraindications for oral contra captives.
15. What are the four nerve injuries of newborn at birth?

**B.Sc (Nursing) DEGREE EXAMINATION
(Revised/Modified Regulations)
Fourth Year /Eighth Semester
Paper III/I – MIDWIFERY
Q.P. Code : 664791**

Time : Three hours

Maximum : 150 marks

Answer ALL questions.

I. Essays: (50)

1. a) What is breech presentation? (2)
b) Enumerate the causes and its clinical types. (6)
c) Explain the management of labour in breech delivery. (12)
2. a) What is physiological anemia? (2)
b) Mention the causes for anemia in pregnancy. (5)
c) What is the management of anemia in pregnancy? (8)
3. List the conditions of obstetrical emergencies and explain any two conditions in detail. (15)

II. Write Short Notes on : (4 x 10 = 40)

1. Development of placenta.
2. Ectopic pregnancy.
3. Fertilization.
4. Induction of labour.

III. Write Short Notes on : (6 x 5 = 30)

1. Amniocentesis.
2. Lochial assessment.
3. Birth injuries of newborn.
4. IUGR.
5. Nutrition in pregnancy.
6. Family welfare programme.

III. Short Answer Questions:

(15 x 2 = 30)

1. List two functions of placenta.
2. What is meant by eccentric insertion of umbilical cord?
3. Mention the two changes of fetal circulation at birth.
4. Reason for increased femoral venous pressure during III trimester.
5. What are the two formulae used to estimate weight of the fetus.
6. Define moulding.
7. What is cardif 'Count 10' formula?
8. Define oblique posterior arrest.
9. What is macrosomia?
10. Meaning of pre term labour.
11. Reason for cold stress in newborn.
12. Define intrauterine growth restriction.
13. Define Naegele's pelvis.
14. Define fetus papyraceous.
15. Define omphalopagus fetuses.

**B.Sc (Nursing) DEGREE EXAMINATION
(Revised/Modified Regulations)
Fourth Year /Eighth Semester
Paper III/I – MIDWIFERY
Q.P. Code : 664791**

Time : Three hours

Maximum : 150 marks

Answer ALL questions.

I. Essays: (50)

1. a) Define Abortion. (2)
b) Classify abortion and explain incomplete abortion. (8)
c) Describe the second stage of labour. (5)
d) Mention the complications of third stage of labour. (5)
2. a) Define preterm and enumerate the characteristics of a preterm baby.(7)
b) Describe the nursing management of a preterm newborn. (8)
3. a) What are the physiological changes during pregnancy? (8)
b) Describe the antenatal care in detail. (7)

II. Write Short Notes on : (4 x 10 = 40)

1. Foetal circulation.
2. Partogram.
3. Preventive of obstetrics.
4. Diagnosis of pregnancy.

III. Write Short Notes on : (6 x 5 = 30)

1. Puerperal pyrexia.
2. HIV infection.
3. Phototherapy.
4. Episiotomy.
5. Menstrual cycle.
6. Contracted pelvis.

III. Short Answer Questions:

(15 x 2 = 30)

1. Two transverse diameters of foetal skull.
2. Define neonatal mortality rate.
3. Signs of second stage of labour.
4. Four placental abnormalities – Name it.
5. Naegel's formula.
6. What is Quickening?
7. Define caput succedaneum.
8. Three signs of pre eclampsia.
9. Name the types of pelvis.
10. Name two indications for forceps delivery.
11. Mention any two complications of intra uterine contraceptive devices.
12. Define polyhydramnios.
13. Any four advantages of breastfeeding.
14. Name of two techniques used in tubectomy.
15. Mention any four high risk factors of pregnancy.

**B.Sc (Nursing) DEGREE EXAMINATION
(Revised/Modified Regulations)
Fourth Year /Eighth Semester
Paper III/I – MIDWIFERY
Q.P. Code : 664791**

Time : Three hours

Maximum : 150 marks

Answer All questions.

I. Essays:

(20)

1. a) Describe about Pregnancy Induced Hypertension.
b) Write the nursing management of mother with PIH.

(15X2=30)

2. a) Write about Post Partum Hemorrhage.
b) Discuss in detail about management of PPH.

3. a) Describe about multiple pregnancy.
b) Write about twin – twin transfusion syndrome.

II. Write Short Notes on :

(4X 10 = 40)

1. Preterm labour and its management.
2. Abnormalities of placenta and umbilical cord.
3. Puerperal sepsis.
4. Ectopic pregnancy.

III. Write Short Notes on :

(6X 5 = 30)

1. Partograph.
2. Induction of labour.
3. Immediate care of newborn.
4. Minor disorders of pregnancy and its management.
5. Obstructed labour.
6. Low birth weight babies.

IV. Short Answer Questions:

(15X 2 = 30)

1. Define Hydramnios.
2. What is HELLP syndrome?
3. Mention types of episiotomy.
4. What is post maturity?
5. What are the indications for amniocentesis?
6. Enumerate the pre-requisites for forceps delivery.
7. What is Couvelaire uterus?
8. Define genetic counselling.
9. Write down the signs of placental separation.
10. List down the indication for emergency cesarean section.
11. What is trial labour?
12. Define pre-menstrual syndrome.
13. What is cephalic version?
14. Define missed abortion.
15. What are the presumptive signs of pregnancy?

**B.Sc (Nursing) DEGREE EXAMINATION
(Revised/Modified Regulations)
Fourth Year /Eighth Semester
Paper III/I – MIDWIFERY
Q.P. Code : 664791**

Time : Three hours

Maximum : 150 marks

Answer ALL questions.

I. Elaborate on: (20)

1. a) Write about Antepartum hemorrhage.
b) Explain in detail about management of APH.
2. a) Write about Physiological changes during pregnancy.
b) Discuss in detail about Ante natal care.
3. a) Describe about physiology of puerperium.
b) Discuss in detail about care of post natal mother.

(15X2=30)

II. Write notes on : (4X 10 = 40)

1. Congenital anomalies of new born.
2. Maternal nutrition.
3. Hyperemesis gravidarum.
4. Birth injuries.

III. Write notes on : (6X 5 = 30)

1. Minor disorders of new born.
2. Destructive operations.
3. Cephalo-pelvic – disproportion.
4. Hydatidiform mole.
5. MCH services.
6. Breast complications.

IV. Short Answers: (15X 2 = 30)

1. What is complete abortions?
2. Mention the main causes of PPH.
3. List out the any four causes of IUGR.
4. Define vanishing syndrome.
5. What is retained placenta?
6. What is Jaquemeir's sign?
7. Mention the stages of eclampsia.
8. What is white leg?
9. Define fertilization.
10. What is quickening.
11. Differentiate true labour/false labour.
12. What is GTT?
13. Define prolonged labour.
14. Write down the physiology of lactation.
15. What is TORCH?

Fourth Year B.Sc Nursing Exam
(2005-2006 Regulations)
Paper III – MIDWIFERY
Q.P. Code : 664791

Time : Three hours

Maximum : 150 marks

(180 Min) Answer ALL questions in the same order.

I. Essays:

1. a) Define breech presentation and causes of it. (20)
 - b) Write down the mechanism of left sacro anterior position.
 - c) Explain the management of labour in spontaneous breech delivery.
1. a) Define pre-eclampsia. (15X2=30)
 - b) List the predisposing factors.
 - c) Describe the management of pre-eclampsia during pregnancy.
3. a) Define LSCS and what are the indications.
 - b) Write the preparation of mother who is undergoing Elective Caesarean section.
 - c) Explain the nursing care of mother who had Caesarean section.

II. Write notes on:

(4x10=40)

1. Fetal circulation.
2. RCH Programme.
3. Induction of labour.
4. Appraisal of Newborn.

III. Write notes on:

(6x5=30)

1. Puerperal sepsis.
2. Third stage of labour.
3. Vacuum Extraction.
4. Neonatal Jaundice.
5. Threatened Abortion.
6. Oxytocin.

IV. Short Answers:

(15x2=30)

1. Mention warning Signs in eclampsia.
2. Name Placental abnormalities.
3. Name types of female pelvis.
4. Differentiate placenta praevia and abruptio placenta.
5. Define maternal mortality.
6. Types of lochia.
7. What is Naegele's rule?
8. Define fetus papyraceous.
9. Define hydatidiform mole.
10. List down four advantages of breast feeding.
11. Define postmature baby.
12. What is caput succedaenum.
13. Stages of labour with duration in primary gravida.
14. Define Asphyxia neonatarum.
15. Mention four temporary family planning methods.

Time : Three hours

Maximum : 150 marks

I. Essays:

(1X20=20)

1. a) List out various family welfare program
b) Role of the nurse in family welfare program

(2X15=30)

2. a) Define low birth weight babies
b) List down the clinical manifestations
c) Explain the management of low birth
3. a) Write the physiology normal puerperium
b) Brief out the minor disorders of puerperium and its management

II. Write Short Notes on :

(4X 10 = 40)

1. Immediate newborn care
2. Third stage of labour
3. High risk pregnancy
4. Genetic counseling

III. Write Short Notes on :

(6X 5 = 30)

1. Legal aspects in midwifery
2. Physiology of lactation
3. Changes in fetal circulation at birth
4. USG
5. Fetal effects on maternal drug intake
6. Partograph.

IV. Short Answer Questions:

(15X 2 = 30)

1. Muller Menbro Kerr method
2. List out the transverse diameter of fetal skull
3. Define pseudocuesis
4. List out signs of true labour
5. Wood's maneuver
6. Define inco-ordinate uterine action
7. Define madlener technique
8. Contraindications of IUCD
9. Define cervical circlage
10. Lemon sign
11. Define IUD
12. List out methods of fetal monitoring
13. List out the various destructive surgeries
14. Define version
15. Define episiotomy.

**B.Sc (Nursing) DEGREE EXAMINATION
(Revised/Modified Regulations)Fourth Year /Eighth Semester
Paper III/I – MIDWIFERY**

Q.P. Code: 664791

Time : Three hours

Maximum : 150 marks

Answer All questions.

I. Essays:-

1. a) What are the stages of labour? (20 Marks)
b) How will you differentiate spurious and true labour?
c) Describe the nursing management of woman in II stage of labour.
2. a) Describe the maternal and fetal risk of gestational diabetes mellitus. (15 Marks)
b) Explain the diagnosis and management of gestational diabetes.
3. a) What are the measures to assess the foetal wellbeing? (15 Marks)
b) How will you organize planned parenthood programme?

II. Write Short Notes on :

(4 x 10 = 40)

1. Menstrual cycle
2. Minor ailments of pregnancy
3. Caesarean section
4. Genetic counselling

III. Write short notes on:

(6 x 5=30)

1. Immediate assessment of newborn.
2. Recent advances in contraception
3. Positive signs of pregnancy.
4. RCH programme.
5. Antenatal exercises.
6. Phototherapy.

IV. Short Answer Questions:

(15 x 2 = 30)

1. Methods of expulsion of placenta.
2. Mention 2 transverse diameters of foetal skull.
3. Signs of previous child birth.
4. Abnormalities of umbilical cord.
5. What is osiander's sign?
6. Types of Iochia.
7. Define poly hydramnios.
8. List advantages of ventouse over forceps
9. Mention four causative organisms of puerperal sepsis.
10. Four complications of pre-term babies.
11. Types of post partum hemorrhage.
12. Define quickening.
13. What is "REEDA" scale?
14. APGAR score.
15. Any two complications of oxytocin administration.
